

# Auditors

Community members admitted to Whitman College for the purpose of enrolling in a class for no grade/credit.

- Community members work with the Registrar to enroll in a course and are required to pay the Auditor's Tuition as indicated in the tuition section.

The college will keep a permanent record of all audited work, assigning an "AU" grade with no credit being awarded for successful completion of an audited course. The Registrar's Office will maintain oversight of completion of audited courses and will remove those students who have not met the requirements agreed upon with the instructor of the course before grades are transcribed.
