

Minor Study Programs

A minor study allows serious participation in a secondary interest area without the burden of designing a more comprehensive interdisciplinary program as required for an individually planned combined major. The election of a minor study program is optional.

Minor study programs include 15 to 20 credits within the particular field or area to be completed with a minimum grade-point average of 2.000. The approved minor programs are:

Specific requirements for each of the minor study programs may be found in the respective departmental or area listing in the *Courses and Programs* section. Unless approved by the appropriate departments and/or programs, courses used for minor requirements may not also be applied to requirements in the major or any other minor. In addition, a minimum of three-fifths of the specific course and credit requirements for the minor must be completed in the on-campus program of the college. Refer to the specific major and minor descriptions elsewhere in the catalog.
