

# Sociology 117 : Principles of Sociology

Principles of Sociology is a comprehensive introduction to the discipline of sociology, or the systematic study of human group behavior. With a balance between lectures and discussions, the course covers basic sociological theories and quantitative and qualitative methodological perspectives. Course topics include historical foundations of the discipline, social interaction, socialization, structure, culture, groups and networks, applied sociology, inequalities, globalization, and the relationship between humans and the built and natural environments. Student work includes reading assignments, exams, papers, and an empirical research project that entails research design, data collection and analysis, oral and written presentation of findings, and application of a sociological theory and past empirical research to the findings. Required of all majors; should be taken as early in the student's program as possible. Open to First-years, sophomores and juniors; seniors by consent of instructor only.
